Mariam Tmane

**Draw wireframes or mockups of each of your screens in your software.** You can use the drawing software of your choice (Powerpoint, Figma, MS Paint, etc) to create each wireframe. **Write two testing scenarios for your system, which describe a user completing a task in your software.**

Put the files in this Dropbox and leave links to the files in Git Hub.

#### **Two Testing Scenarios for our Review Website system: Rankify**

1. User inputs email, username, and password to create an account. User receives a verification email and successfully activates the account. User inputs, username and password, incorrectly and receives appropriate error messages. User quits.
2. Business owner user inputs leaves comments on reviews and receives notifications for new reviews on their profile.

Popular reviews in your area:

Highland Bakery GSU

★★★★★

Great service with good portions of food. The Italian veggie sandwich with the white-bean chili was great. The roast beef is a classic that can't go wrong. It was also good.
